

CUSTOMS SERVICE.

Distinguished. Safely around the whole world.

Sabine Möller, Personnel, Göttingen

CUSTOMS SERVICE.

Anyone that is internationally active and wants to move something, is familiar with this: endless formalities. Shipment documents, export accompanying documents, export certificates, statistics. Whether authorised exporter or not. Separate checks. Security zones. And each country with its own laws. Good to have a partner, who takes care of all these worries and who can spoil you with performance.

THE SIMPLE STEPS.

Step 1

You fax or mail the shipping documents (commercial invoice, possibly waybill) to us and we directly submit the data.

Step 2

We receive the electronic export accompanying document as a PDF and directly forward it to you.

Step 3

You simply print the document out and hand it to the driver. Here, it does not matter whether ZUFALL transports the goods or an external forwarder.

Step 4

We monitor the export of the goods in the Atlas system and send the export notice to you – also as a PDF.

YOUR BENEFITS.

As our customer, you do neither bear any software or hardware costs nor training-, staff- and hotline-fees. In addition, you also do not need to train holiday- or sickness-replacements.

An overview of the services:

Smooth processing of all customs formalities

Application of ATLAS since 2002

Import- and export-customs clearing by ATLAS

Since 2009, an "Authorised Economic Operator", AEO F-certified.

Contact us, so that we can work out the optimal solution, quality and price together. Service not limited by any borders.
