WHEN IT'S ALL ABOUT SPOILING YOU

ZUFALL logistics group is a family owned company, that gives a promise to you and to everyone we work with: We will spoil you with our performance. With extensive solutions for your logistics requirements. With the ability to listen and to place your needs front and centre. With great ideas which contribute to your success. With a high level of measurable quality. With people who are committed and who think ahead for you.

When organic products are on their best way

Every industry has its very own requirements. The logistics surrounding food and especially organic products is subject to strict provisions and requires a high degree of trust. After all, the products are served to our dining tables every day. That is why we are personally available for our customers. We take the time for you. We listen carefully. Challenge your processes. And understand your needs. We find the best solution together with you on this basis. Because mistakes in the delivery chain can quickly and globally have negative effects.

We combine modern contract logistics with the fastest transport logistics for our customers. But we also believe that logistical performance only achieves the peak level that makes the difference, when it is based on humanity. For Milupa Nutricia, a company of the Danone corporation, the herzberger bäckerei, one of the biggest German organic bakeries, and LogiBio, a wholesaler for organic and luxury foods, precisely that difference is the reason why they chose ZUFALL as their logistics partner.

BABY FOOD ALL-AROUND NO WORRIES

The ZUFALL logistics group organizes the storage, commissioning and distribution of baby food for Milupa Nutricia GmbH. Together, the partners shoulder the enormous production growth in the area of Sales Unit Bad Homburg and the Sales Point Fulda. More than 720 different goods are stored on 25,000 m² of logistics space. Several times a day, shuttle-transport between the production plant and the nearby logistics center ensure the production supply and disposal just in time. The trust of parents placed on the quality of Milupa Nutricia products has the highest importance for the company. For it is all about the well-being of infants and toddlers. Therefore, ZUFALL offers the fulfillment of the most stringent hygiene provision, an HACCP- certification and a seamless traceability of its shipments to Milupa Nutricia.

Activities for Milupa Nutricia

- HACCP auditing
- reventive pest control
- shuttle traffic
- Pick-by-Voice-commissioning
- production supply
- worldwide distribution
- customs processing

WHEN ORGANIC PASTRIES ARE EN ROUTE

The ZUFALL logistics group takes care of storage, commissioning an distribution of organic baked goods for the herzberger bäckerei GmbH. To do so, both partners mastered the extensive outsourcing of the logistical activities with a transfer of employees and the vehicle fleet. Ready-baked goods for home-use as well as numerous packaging materials are stored on around 350 m² logistics space. And as FMCG, these baked goods find their way to the retail shelves in more than 8,000 bread and baguette cartons. ZUFALL takes care of the delivery of the fresh pastries in the early morning hours through 30 supply tours to 300 delivery points. The organic bakery which emerged from the tegut...-group is one of the biggest in Germany. The herzberger bäckerei won several golden DLG awards in 2016 with the high quality of its organic products. That qualitative standard, a resource-saving logistics strategy and the great importance that human craftsmanship represents are what unites the herzberger bäckerei and ZUFALL.

Activities for herzberger bäckerei

- Organic guidelines
- Fast Moving Consumer Goods (FMCG)
- Regional round trips
- Germany-wide distribution
- Display setup
- Logistics consultation
